Green Roof – Project Fact Sheet National Institutes of Health

Project Name: National Institutes of Health New Visitor Center
Project Location: Bethesda, Maryland, USA
Size / Type: various Green Roofs – April 2007

Project Description:

Provided design, specification and construction administration services for 0.61 acres of living green roof area on the National Institutes of Health (NIH) New Visitor Center in Bethesda, Maryland, just outside of Washington, D.C. The green roofs reduce impervious surface area and stormwater runoff to sensitive waterways.

Architect: IDB Architecture, Inc., Fairfax, Virginia
